Level 1	Level 1	Level 1	Level 1

Organized Demonstrations, State of California

Per the Cal OES Law Duty Officer:

- The Governor's Office of Emergency Services, Law Enforcement Branch is monitoring several organized demonstrations throughout the State of California.

Cal OES Coastal Region

Helicopter Operations/Training, Lake Mendocino, Mendocino County

On 07/12/16 and 07/13/16, the Mendocino County Sheriff's Office conducted a joint training effort between the California National Guard, Cal Fire, Search and Rescue Teams from Lake, Napa, Marin, and Mendocino Counties, the US Army Corps of Engineers, and the Mendocino County Sheriff's Office. This training took place around Lake Mendocino and around the Cal Fire Station at Howard Forest from 0700 hours through 0000 both days.

- For Safety reasons during this training the US Army Corps of Engineers has closed the South Lake Mendocino Wildlife Area, including all hiking trails east of the Lake Mendocino Dam to the general public. These areas will re-open Friday, 07/15/16.

San Francisco Bay Ferry Service Disruption

Due to major engine maintenance, the SF Bay Ferry will be out of service for the 0800 hours Vallejo departure and 1730 hours SF Ferry Building (SFFB) departure for the next two weeks. From 07/11/16 through 07/22/16, there will be two buses serving the 0800 hours Vallejo departure and two buses serving the 1730 hours SFFB departure.

San Mateo Bridge Lane Closure

On 07/13/16 and for the next five nights (7/13-17/16) Caltrans will close two lanes of the San Mateo Bridge span in order to make permanent repairs to the bridge deck. Crews will be repairing a hole that opened up on the westbound deck, just east of the high-rise section last month. Only two of the three westbound lanes will be closed. The first lane will be closed at 1900 hours. The second lane will close at 2200 hours. The third lane will remain open at all times. The two lanes will remain closed until 0500 hours every day during construction.

SITUATION SUMMARY

Cal OES Coastal Region

BART Service Disruption

On 07/15/16 at 2100 hours until 07/18/16 at 0400 hours, BART will close the tracks between South Hayward and Fremont to perform critical repair work. During the closure a bus bridge will be provided to shuttle passengers between South Hayward, Union City and Fremont stations. Departure Times may not be available during track work.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

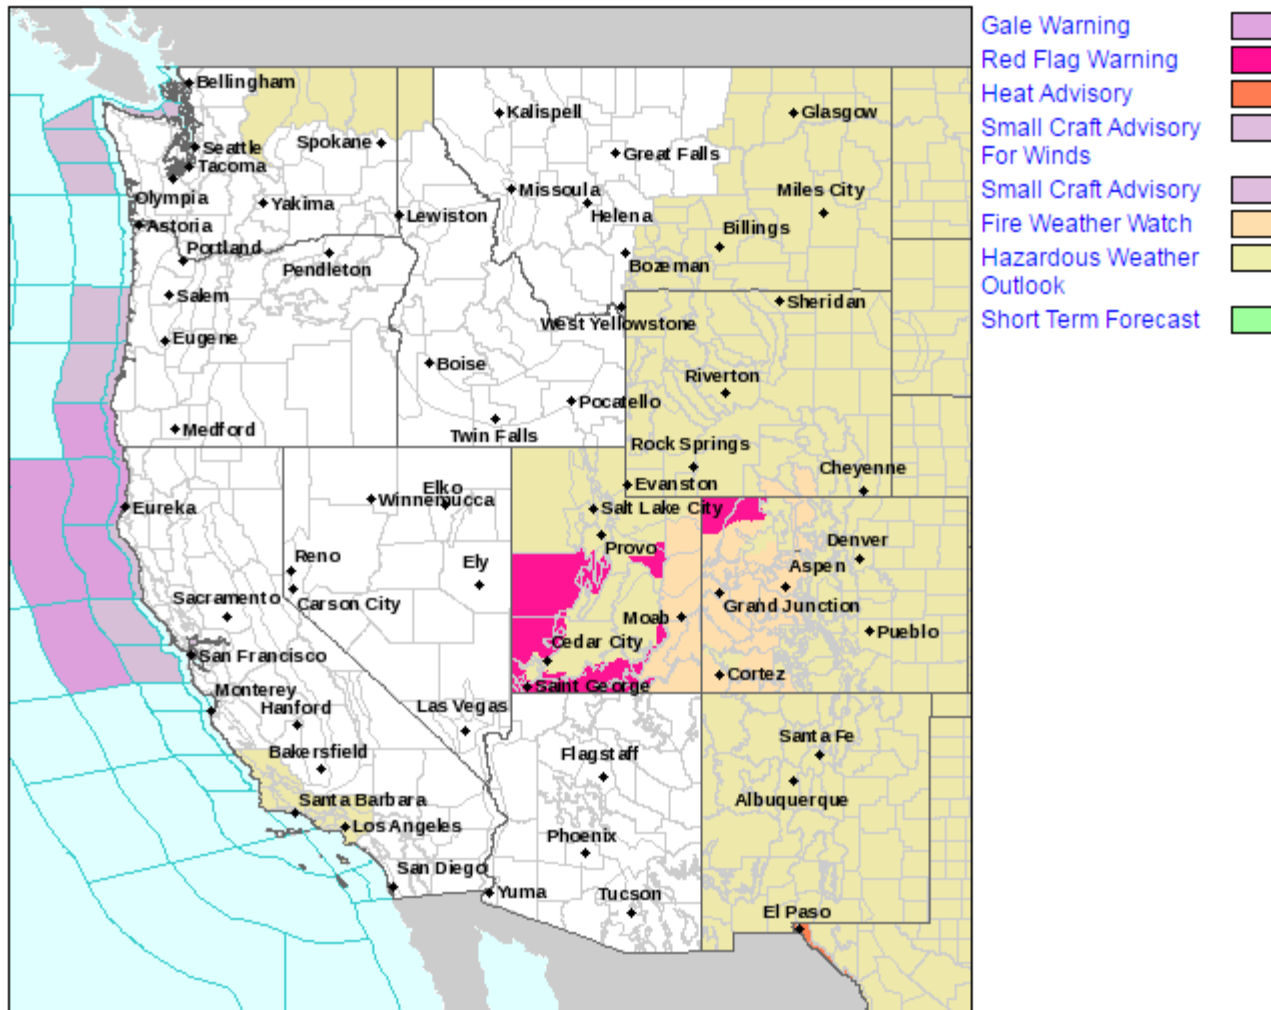

A shift in the weather pattern is underway with a low pressure trough now over Northern California. Only the very northern areas will probably see noticeable cooling today, with the warmest inland valleys further south likely to have afternoon highs 100-105 again. The trough will develop over the weekend, and we will see substantial cooling with afternoon highs dropping to as much as 10 degrees below seasonal normals by Sunday and lingering Monday at around 90 in the warmest valleys those days. A slight chance of afternoon and evening showers and thunderstorms across the northern counties is expected Sunday and probably Monday as well. Any thunderstorms or showers that develop seem likely to produce wetting rain (at least 0.10"), but any lightning that occurs could still be a mix of wet and dry. The trough will weaken next week and higher pressure with warmer temperatures will gradually return to Northern California. The trough will not bring in a lot of moisture to the region, so most areas will continue to have seasonably low afternoon RH and overnight recoveries with areas of single digit afternoon lows and moderate to borderline-poor overnight recoveries. Sunday and Monday afternoons appear likely to see moderately strong, gusty westerly winds develop near and east of the Cascade/Sierra crest with gusts around 30-35 mph. Low RH will accompany those winds in NV. Otherwise, winds will generally be light and of the typical diurnal wind patterns for the area.

SOUTHERN CALIFORNIA

A trough will deepen over the Pacific Northwest during the next few days, which will produce stronger onshore flow and locally breezy conditions. Temperatures today will hold steady, then should drop a couple degrees each day through Monday. However, temperatures will still be a few degrees above normal with highs in the 70s along the coast, mid to upper 90s in the valleys and 100-103 in the San Joaquin Valley. It will be breezy each afternoon in the Kern County Mountains, the Antelope Valley and the Banning Pass where west winds of 15-25 mph with gusts to 40 mph will be possible, especially this weekend. Minimum RH will drop into the single digits due to down sloping effects in the Kern County Mountains and possibly the north sides of the Angeles and San Bernardino National Forests. RH recovery will only be fair in these areas the next two nights. Other areas will see a deepening of the marine layer this weekend with morning low clouds reaching the valleys by Sunday morning. Next week, a ridge over the Southwest will draw closer to the region. This will result in a modest warming trend and less marine layer coverage. It will remain breezy in and near the deserts. Upper level circulation around the ridge may introduce some monsoonal moisture to the far eastern deserts by midweek but the rest of the area will be thunderstorm-free the next 7 days.
